The MX (Masters Extra) Programme Session 2015-2016

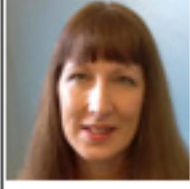

The MX (Masters Extra) Programme is an integrated programme between the School of Management, CAPOD and the University Careers Centre. It provides focused careers events and is open to all of our taught postgraduate Masters degree students.

MX offers you the opportunity to enhance your career opportunities by participating in this programme while you study for your taught Masters degree. This series of Wednesday afternoon talks, workshops and professional development activities can lead to the Certificate in Career Development. To qualify for a certificate you need to attend (and sign in at) a minimum of 4 MX sessions in each semester. Our photo above right shows Mr Martin Dowling presenting the 2014-2015 Certificate to Miss Yajing Li. See more about the awards sessions: 2014-2015 MX Certificates of Career Development awarded.

The outline draft programme for Semester One is below. Additional details will be posted here and sent to students by email. The default time for MX sessions is 4.15pm to 5.45pm. All dates are on Wednesday.

MX Programme Co-ordinator is Charles Lovatt.
